Survival Analysis

Phosphorylation Site Query

Query phosphorylation sites for specific proteins and view detection statistics in tumor vs normal tissues. Select phosphorylation sites for downstream clinical and survival analysis.

Workflow: 1) Query phosphorylation sites -- 2) Select sites of interest -- 3) Perform clinical/survival analysis

Query Parameters

Protein Symbol:

G3BP2

Enter the protein symbol to query phosphorylation sites.

Visualize

Phosphorylation Sites

Search:

	PhosphoSites	No. in Tumor	Prop. in Tumor	No. in Normal	Prop. in Normal
1	G3BP2/T227	71	100%	28	100%
2	G3BP2/T226	4	5.63%	1	3.57%
3	G3BP2/S141	1	1.41%	0	0%
4	G3BP2/S235	1	1.41%	0	0%
